

HUGO BASTOS

PROJECT MANAGER

Personal summary

I pride myself with having proven video and broadcast technical expertise as well as a solid IT background. As an experienced and confident engineer and project manager, I believe in being flexible and am able to adapt positively to any challenges that arise, while being able to take ownership of key issues and making sometimes difficult decisions. I am currently looking for a new challenge and new ways to improve myself professionally. Being a quick learner, great communicator and a natural problem solver with excellent technical background, I am looking to move forward into the international Broadcast and IT domains.

Career history

Pantalha – Sistemas de Processamento de Imagem, Lda

PROJECT MANAGER February 2012 - Present

- Management of projects regarding sales of integrated solutions and occasionally sales of standalone equipment.
- Management of pre-sales engineering service, and elaborating the requirements assessment, solutions presentation and planning.
